A VINTAGE BOOKS TRADE PAPERBACK

THE HEMLOCK CUP

Socrates, Athens and the Search for the Good Life

by

Bettany Hughes

"By the end of her book, we can almost see and smell the man, with all of his quirks and foibles and questioning brilliance."

—Walter Isaacson, *The New York Times Book Review*

From the celebrated British author and historian: a brilliant new book combining historical inquiry and storytelling élan to paint an unprecedentedly vivid portrait of Socrates and the Golden Age of classical Athens.

We think the way we do because Socrates thought the way he did; in his unwavering commitment to truth and in the example of his own life, he set the standard for all subsequent Western philosophy. And yet, for twenty-five centuries, he has remained an enigma. Drawing on the latest sources—archaeological, topographical, and textual—Hughes re-creates the streets where Socrates walked, to place him there, and to illuminate for us the world as he experienced it.

She takes us through the great, teeming Agora where Socrates engaged in philosophical dialogue and where he would be condemned to death. We visit the battlefields where he fought, the red-light district and gymnasia he frequented and the religious festivals he attended. We meet the men and women who were central to his life. We travel to where he was born and where he died. And we come to understand the profound influences of time and place in the evolution of his eternally provocative philosophy.

PRAISE FOR THE HEMLOCK CUP

"A beguiling book. . . . Hughes triumphs again. This is history, and historical reconstruction, exactly as it should be written. . . . The Socrates Hughes creates is ultimately a towering yet intensely human figure. He lives and speaks again in these pages: It's a singular accomplishment."

—*The Washington Post*

"Delightful . . . Hughes presents a high-octane account of Socrates and his age. . . . Do read this book, both because of its marvelous storytelling and because it will stimulate a desire to learn more about the ancient world."

—*The Wall Street Journal*

"The brilliant cultural historian Hughes has again produced an intriguing and entertaining biohistory of one of the most important individuals in the ancient world. . . . She brings to life the social, political, economic, literary, and military realities of Socrates' society, in particular the centrality of the agora, (and) aptly conveys the continuing urgency of Socrates' devotion to the inquiring mind."

—*Publishers Weekly (starred)*

"There are certain historical figures whose lives merit perpetual reexamination because their impact continues to reverberate century after century. . . . Not only a lively and eminently readable biography of Socrates the man, but also a vivid evocation of Athens, the city-state on the cusp of originating many of the greatest precepts of modern Western civilization."

—*Booklist*

"An invigorating, tremendous work of scholarship. . . . A smart and entertaining 'biography' of Socrates as shaped against the great experiment of democracy in 5th-century BCE Athens. . . . Hughes thrillingly navigates the life stages of her subject."

—*Kirkus Reviews (starred)*

"This is a lucid, erudite, and compelling work that brings Socrates and his city to life, offering a fresh and illuminating perspective on their times . . . A fruitful melding of informed and nuanced historical narrative and personal observation that succeeds marvelously in realizing its bold ambition."

—*Weekly Standard*

"Bettany Hughes' biography is far more than just that: this tour de force is a vivid political and social history of Athens in the 5th century BC. Hughes evokes a city steeped in change, looking past the Golden Age of democracy, new wealth and power to the reality of a century tempered by war and infighting. With the plan of his life as a backbone, the book covers the whole experience of 5th-century Athenians, yet paints a picture of Socrates as a marvellous eccentric, paddling the streets barefoot, conversing with strangers and refusing to conform . . . this approach produces an extremely exciting narrative. . . . This is not a study of Socrates' philosophy but his world. As thought-provoking as it is thrilling, the book is a beacon for the relevance and interest of classics today."

—*The Times (London)*

"Bettany Hughes's terrifically readable life of Socrates is more than just a life; it is also an evocation and explanation of the world that created him, and over which he would come to have such influence. . . . **THE HEMLOCK CUP** makes a vivid and persuasive case for the study of Socrates as a valuable means to understanding how our way of thinking about our own world came to be, and a guide to how we might understand it better."

—*The Independent on Sunday (UK)*

"No one before Bettany Hughes, a highly accomplished communicator, has thought to weave Socrates's examined life into quite so rich and dense a tapestry of democratic Athens's teeming high-cultural and mundane experience. . . . Hughes's enormous energy and enthusiasm are infectious."

—*Paul Cartledge, The Independent (UK)*

"A compelling study of an exceptional man's relationship with the one community that had a hope of understanding and accepting him. There's some terrific and passionate writing about a philosopher whose heroism is unquestionable; and as lively and learned an introduction to classical Athens as you could want."

—*The Daily Telegraph (UK)*

"The life of Socrates becomes a peg from which to hang a vivid depiction of Athens in its golden age, from the pinnacle of its greatness to the abyss of its ultimate defeat. . . . Hughes's prose is the literary equivalent of CGI, re-creating for the reader a sense of the clamour and dazzle of the classical city that has rarely been bettered. . . . Hers is an ancient Greece that is authentically cutting-edge."

—*The Observer (UK)*

ABOUT THE AUTHOR...

Credit: Sarah Turton

Bettany Hughes is an award-winning historian, author and broadcaster. Her first book, *Helen of Troy*, has been translated into ten languages. She has written and presented numerous documentaries for the BBC, PBS, the Discovery Channel, the History Channel and National Geographic, which have been seen by more than 100 million viewers worldwide.
